

Our BlackBox GPS Locator™ with internal Antenna¹ or our BlackBox GPS Water Resistant Locator™ use sophisticated GPS Satellite and cellular network technology to transmit your vehicle's position through a data network.

BlackBox GPS Fleet Manager™ is an economical web-based tracking and routing solution ideal for managing service, delivery or pickup fleets and it is easy to use. Pinpoint your vehicle location on a map or analyze the stored data you need to control fuel efficiency and labor productivity. Knowing where your assets are also minimizes risk related to driver behavior and potential theft. With low monthly fees, buy now and start measuring your savings today!

- Easy-to-use login from anywhere, anytime 24/7
